

Unique used machinery solutions for the automotive industry

MachinePoint services to the automotive industry

One stop solution for your used machinery needs

MachinePoint Used Machinery is the largest European trader of used machinery in the plastics industry, with over 40 employees and offices in 4 continents, entirely dedicated to helping companies buy and sell used machinery.

MachinePoint's division devoted to the automotive industry aids the main automotive groups and its providers in the buying and selling of their used equipment on a worldwide scale.

Thanks to our international presence with local offices and an extensive network of partners we can market used machinery worldwide. Our experience in managing international equipment projects is the key to our success.

MachinePoint Used Machinery boasts a brand name that is synonymous with quality and good service. It has succeeded in its primary aim to professionalize the used machinery industry and bring quality and safety to the trading of used machines.

For the automotive industry MachinePoint Used Machinery handles the following types of equipment:

- ⇒ **Large tonnage injection**
- ⇒ **Thermo-forming**
- ⇒ **Extrusion blow moulding**

The brands we cover within the automotive industry are GEISS, ILLIG, KIEFEL, TFT, HUSKY, ENGEL, KRAUSS MAFFEI, CINCINNATI MILACRON, NETSTAL, VAN DORN, KAUTEX, BEKUM, UNILOY, BATTENFELD-FISCHER, VOITH-FISCHER, among others.

MachinePoint Used Machinery has developed a thorough business model and process that has been in place for over a decade.

Our multi-expertise team is responsible for providing a complete solution to the needs of our customers to successfully complete international transactions of industrial equipment.
